

CYBER SECURITY CONTROLS

Here at Ryde Eastwood Leagues Club, we take the security of your data seriously. We employ a range of security controls to protect your information from unauthorized access and disclosure. This info sheet outlines some of the key security measures we have in place to keep your data safe. We understand the importance of safeguarding your information and are committed to maintaining a high standard of security.

Access Control

Regulating who has permission to view, access or modify certain data, resources and computer system within our network via user account permissions, complex passwords, 2-factor authentication and regular access audits.

Firewall and Endpoint Protection

Employing the use of Next-Gen firewalls to monitor, inspect and control all traffic flowing To and from our network. While endpoint protection continually monitors and blocks various types of threats including viruses, malware, spyware, and other malicious software.

Third-Party Penetration Testing

Working with third-party Cyber Security Specialists to put our security controls to the test and ensure there are no known critical vulnerabilities that could put our network at risk.

Incident Response

Adhering to a structured and tested Cyber Security Incident response plan to identify, Manage and mitigate a cyber security incident as quickly and effectively as possible.

Training and Education

Providing ongoing Cyber Security training to all club staff to ensure they are able to identify potential threats, while also conducting randomized testing to confirm staff can apply this training in real-world scenarios.

Please Note: Before granting access to any third-party vendor, software, or application that requests access to any sensitive data, Ryde Eastwood Leagues Club conducts a thorough vetting and review process of the requesters security measures. This process includes evaluating their data protection policies, security controls, encryption standards and access controls.
